

BADIL

Kabuli Chickpea

BADIL
The chickpea with strong establishment and early maturity

Early vigor
Very good

Yielding
High

Earliness
Early

Ascochyta rabiei
Low susceptibility

Varietal Identity

TYPE ————— Kabuli
GENETIC TYPE ————— Inbred line
USE ————— Food Industry
REGISTRATION ————— EU

Technological Identity

PROTEIN CONTENT

21,4%,
HIGH

GRAIN SHAPE

Round, slightly angular

GRAINE COLOR

Beige

CALIBRATION

Medium size : 7 à 8 mm

TKW

280 to 320 g
