

ID SUNBIRD

S5

Small Striped Sunflower hybrid

ID SUNBIRD S5

Mid-early small-striped sunflower with high yield potential

Earliness

Early

Yielding

Very high

Sanitary profile

Very good

Grain quality

Very good

Varietal Identity

TYPE	Small striped kernel
GENETIC TYPE	Single cross hybrid
USE	Birdfood, Crushing and Hulling
REGISTRATION	EU
HERBICIDE TOLERANCE	No tolerance

Technological Identity

OIL CONTENT	MEDIUM
KERNEL TYPE	Black kernel with white stripes
SPECIFIC WEIGHT	> 40
KERNEL SIZE	~ 12,13 x 5,6 mm

PRODUCT MANAGER'S OPINION

ID SUNBIRD S5 is a mid-early, uniform variety with strong early vigor and good overall agronomic performance, particularly against broomrape.

ID SUNBIRD S5 delivers excellent yield levels in all conditions, with seed quality that meets the expectations of the bird feed market.
