Early

Varietal Identity

TYPE — Dark Red Kidney (DRK)

GENETIC TYPE — Inbred line

USE — Food Industry

REGISTRATION — France, 2023

Technological Identity

GRAIN COLOR — Red

GRAIN SHAPE — Kidney

TKW — 400 to 500 g

PRODUCT MANAGER'S OPINION

SEATTLE is a high-yielding and consistent dark red kidney (DRK) bean variety. Its strong agronomic and technological performance makes it well-suited to meet industry demand. The rapid grain coloration at the end of the cycle ensures a secure harvest for both dry and semi-fresh production.

Agronomical Identity

LOW QUITE LOW MEDIUM HIGH VERY HIGH

YIELDING

EARLY VIGOR — Medium

FLOWERING EARLINESS — Mid-early

MATURITY EARLINESS — Mid-early

HEIGHT — Medium to tall

PLANT ARCHITECTURE — Erected

HARDINESS — Good

LODGING — Low to very low susceptibility

Sanitary Identity

DISEASE BEHAVIOUR — Good overall behaviour
